

FREQUENTLY ASKED QUESTIONS

COVID specific protocols are highlighted.

Where will my camper live? In a cabin with at least 2 staff members and 5-7 same grade/age campers. **We have reduced our cabin size to allow for more space. Cabins are cleaned daily by staff and campers following cleaning protocols of the CDC. Campers are only responsible for their own area and belongings. Staff clean the commonly used areas wearing protective equipment.**

Who are the campers? 5th-11th graders from across the state. **Campers will participate in 2 Cohorts with Traditional Campers in one group and Bridge & Leadership Campers in another. These 2 cohorts will operate separately from one another and wear masks if they need to be together.**

Who are the staff? They are compassionate, knowledgeable, and fun! All have participated in at least one week of intensive training worth 3 college credits **that includes COVID Cleaning Procedures and Program Policies and Protocols.** Staff are high school or CSC Leadership Development graduates. Most are enrolled in college or career professionals.

What are the activities at camp? Our activities are those you would expect at camp with everything from Arts & Crafts to Capture The Flag to Swim Lessons. **All activities are modified to meet safety guidelines from the State of Maine and the American Camp Association. We anticipate our camp favorites with increased disinfecting of equipment and more frequent cleaning of all areas. Campers also Scrub In/Scrub Out at each activity area by washing their hands or using hand sanitizer before participating or entering an area.**

What will the campers eat? The Dining Hall serves 3 balanced, nutritious, kid-friendly meals each day at 8:15 a.m., 12:30 p.m., and 6:00 p.m. There is a 3:00 p.m. snack. Food from home is not encouraged and will be stored in the office and returned at Check-Out. **We have spread out tables to allow for proper ventilation. One staff member at each table will serve food.**

What if my camper is injured or ill? Our Registered Nurse dispenses medications and takes care of routine illness and injury. Should a camper need to be examined by a physician, we will call you to schedule an appointment with their regular physician or make other arrangements. Camper safety is our number one priority. We will contact a family member at the soonest opportunity in an emergency situation.

If a camper is reporting symptoms consistent with COVID-19 they will need to leave camp immediately. We will contact you to arrange this. We will follow all CDC guidelines and notify the State of Maine should this scenario occur. We will share information as necessary.
